# Style TILES

A Visual Web Design Process *for Clients & the Responsive Web*

## ■ WHAT ARE STYLE TILES? ■

Style Tiles are a design deliverable consisting of fonts, colors and interface elements that communicate the essence of a visual brand for the web.

They help form a common visual language between the designers and the stakeholders and provide a catalyst for discussions around the preferences and goals of the client.

DOWNLOAD TEMPLATE 

Style Tiles are similar to the paint chips and fabric swatches an interior designer gets approval on before designing a room. An interior designer doesn't design three different rooms for a client at the first kick-off meeting, so why do Web designers design three different webpage mockups?

Present clients with interface choices without making the investment in multiple photoshop mockups.

## ■ WHEN TO USE STYLE TILES? ■

Style tiles are for when a moodboard is too vague and a comp is too literal. Style tiles establish a direct connection with actual interface elements without defining layout. They work well for clients who have established brands and need them to translate smoothly to the web. Whereas the word "**mood**" is often associated with brand and identity design, the word "**style**" was chosen to mirror "**cascading stylesheets**" and reinforce that Style Tiles are specific to Web design.

Moscú—El extécnico de la CIA Edward Snowden, atrapado en el aeropuerto moscovita de Sheremétievo desde hace más de tres semanas, podrá salir de este recinto y desplazarse libremente por la ciudad dentro de una semana, en espera de que se resuelva su petición de asilo a Rusia.

El abogado de Snowden, Anatoli Kucherena, dijo hoy a un reducido grupo de periodistas que el Servicio Federal de Migración (SFM) ruso, encargado de decidir sobre la solicitud, "tiene un plazo de siete días" desde que ésta se presenta, lo que ocurrió ayer.

Según Kucherena, el SFM debe entregar a Snowden en ese plazo el acuse de recibo de su solicitud de asilo temporal, lo que le permitirá

Kucherena informó de que si se le concede el asilo temporal en Rusia, éste será "por un año, renovable anualmente", y expresó su opinión de que la petición no será rechazada. Para llenar la solicitud de asilo, el extécnico de la CIA tuvo que cumplimentar —según su asesor— "un cuestionario de cerca de 20 páginas en el que tuvo que responder a los motivos por los que lo solicitaba".

**MOSCÚ-** El extécnico de la CIA Edward Snowden, atrapado en el aeropuerto moscovita de Sheremétievo desde hace más de tres semanas, podrá salir de este recinto y desplazarse libremente por la ciudad dentro de una semana, en espera de que se resuelva su petición de asilo a Rusia.

El abogado de Snowden, Anatoli Kucherena, dijo hoy a un reducido grupo de periodistas que el Servicio Federal de Migración (SFM) ruso, encargado de decidir sobre la solicitud, "tiene un plazo de siete días" desde que ésta se presenta, lo que ocurrió ayer.
